Remarks

COURSE WAS WELL ORGANISED

...

no remarks

.

It was a excellent course. I am happy about the course.

good course

Good , project must be removed as it is for beginners and 1 credit course, also location must be in A B C block only .

You teach well.

Good

Good

Definitely

Good

I loved the way the instructor pointed out edge cases and special behaviours in various libraries in python. It felt like he dived deep into the working of many concepts.

Good

Instructor is new but very supportive and energetic instructor

He did a good practice of this course

.

NA

n/a

very good

He taught passionately.

n/a

Well explained

The instructor adeptly delivered the course content with clarity and precision, ensuring an effective learning experience for all participants.

The professor explained the most foundational concepts exceptionally well

.

Good

Course credits can be increased to 2 for AI students

For this course one credit isn't enough

.

NA

n/a

fine

It was a well modelled course to enhance understanding and application of Python.

n/a

Good course

I hold a strong affinity for this course.

Good course for beginners especially seeking career in AI and Data Science

this should have been a 3-credit course for AI DEPARTMENT

A rather interesting and useful course.

good
